

# Comptes Rendus Palevol (online only)

## Instructions to the authors

### SCOPE OF THE JOURNAL

*Comptes Rendus Palevol* is a fully electronic journal, with a continuous publication stream, devoted to palaeontology, prehistory and evolutionary sciences. It publishes original research results, in French or English, in the following domains: systematic and human palaeontology, prehistory, evolutionary biology and macroevolution.

Thematic issues may also be published under the responsibility of a guest editor.

### GENERAL INFORMATION

The submission of a manuscript to *Comptes Rendus Palevol* implies that it is not being simultaneously offered for publication elsewhere. A copyright assignment form must be signed before the final acceptance. Copyright of the published paper, including illustrations, becomes the property of the journal. Requests to reproduce material from *Comptes Rendus Palevol* should be addressed to the journal.

Nomenclature should follow the most recent editions of the *International Code of Zoological Nomenclature* and the *International Code of Botanical Nomenclature*.

Preservation of type and other specimens should be in accordance with the recommendations of the international codes of nomenclature: all illustrated or described specimens must be registered and deposited in an appropriate permanent institution, with staff and facilities capable of ensuring their conservation and availability for future reference in perpetuity. Their collection numbers, and their location of housing, should be indicated.

Each manuscript will be reviewed by at least two referees.

### FORMAT OF THE JOURNAL

*Comptes Rendus Palevol* is published online only (PDF file on the journal's website). The journal is in A4 format (21 × 29.7 cm). Articles and thematic issues are available via a Print-on-demand system.

### SUBMISSION

Manuscripts, and illustrations, conforming strictly to the present instructions should be submitted to the journal at

the following address: <https://comptes-rendus.academie-sciences.fr/ojs/palevol/>.

The manuscripts should be prepared with double spaced, margins of at least 3 cm and all pages numbered.

To complete these instructions, please refer to a recent article of *Comptes Rendus Palevol*.

**Reviewers.** Each author can suggest some names of potential referees for his article. Conflicts of interest can also be indicated.

### STRUCTURE AND FORMAT OF THE MANUSCRIPTS

**Structure.** Papers are to be written in simple, concise and scientific French or English and should be organized as follows:

- title in English;
- title in French (exact translation);
- running head in the language of the article;
- first name(s) and surname(s) of author(s), followed by their full professional address(es) and e-mail(s); a corresponding author can also be designated;
- abstract in English, 200-250 words long; include precise differential characters for new taxa;
- résumé in French (exact translation, the journal may provide help for translation);
- key words in English (5 to 10 max.);
- mots clés in French (exact translation, 5 to 10 max.);
- text of the article, in the following order: Introduction, Material and methods, Abbreviations, Systematics/Results, Discussion, Acknowledgements, References, Legends of figures and tables. Very long papers may include a list of contents; papers dealing with a large number of taxa may include an index;
- acknowledgements should mention the names of the reviewers;
- do not use footnotes.

### SYSTEMATIC TREATMENT

- Each systematic description should be arranged as follows: name of the taxon with author and date, original reference of the description, taxonomic historic, with synonymy, type

- material, etymology, material examined, type horizon, type locality, diagnosis and/or description, remarks;
- use n. sp., n. gen., n. fam., etc., at each occurrence of a new taxon name; and n. comb. at each occurrence of a new combination; for each new species, a diagnosis *and* a description must be provided;
- every taxon names cited in the text should be followed, when first mentioned in the text, in the résumé/abstract and in the captions of the figures, by author(s) and date of description, separated by a comma; an exception is however accepted in the case of comparative articles, due to the large number of taxa mentioned (e.g. Laurin 2004 and Laurin *et al.* 2004); in this case, authorships are not mentioned, unless they allow to distinguish some taxa or for new taxa (n. sp., n. gen., etc.);
- use italics for names of genera and species.

## ILLUSTRATIONS

The figures of the articles should be prepared in 17.5 × 22 cm maximum; each figure and its caption should be 238 mm high maximum.

Original figures should be sent with the revised version of the article.

The editorial board pays special attention to the quality and relevance of illustrations.

**Line drawings (black and white figures).** They should preferably be provided in electronic format (resolution 1200 dpi, TIFF file) or vectorial format (AI, PDF, EPS or SVG file). Line drawings should be prepared in Indian ink (or identical technics), if not, they will be treated as half-tone figures, and their resolution of printing will be reduced to 300 dpi. It is still possible to send the original pictures to the editorial board, that will take in charge their digitalization and send you back the original files at the end of the publication.

**Photographs, half-tone or color figures.** Electronic files should be provided (resolution 300 dpi in 17,5 cm wide minimum, format TIFF or PSD).

**Letters and composition of the plates.** For electronic versions of the figures, these elements should be indicated on an overlay. If it's not possible, two versions of each figure should be provided: one complete, with all the letters and additional elements on it, the other with the picture itself only. Letters should not be pixelized, nor vectorized (letters should remain editable).

On the original figures, letters, numbers, etc., have to be indicated on an accompanying overlay, not on the original figure. They will be inserted by the editorial board.

Illustrations can be grouped into composite plates, the elements of which are identified by capital letters (A, B, C, etc.). Plates will be considered as figures and numbered as such. Illustrations should fit one (85 × 220 mm max.) or two columns (175 × 220 mm max.).

References to illustrations and tables should be indicated as follows: (Fig. 1), (Fig. 2A, D), (Fig. 2A-C), (Figs 3; 6), (Figs 3-5), (Table 1); the calls to the Figures and Tables of the article begin by capital letter (Fig. 1; Tables 5-7) when the calls to figures or tables of other publications begin by a lowercase letter (Denison 1978: 54, fig. 1a, pl. 7).

Captions of illustrations, on a separate sheet, should include abbreviations and scale values (e.g., Scale bar: 1 cm).

**Scale bar.** A scale bar is required for each figure, without any multiplier.

**Fonts.** All lettering is to be in Helvetica or Arial font, 10- or 8-point body. The Figure's elements (A, B, C, etc.) are in 10-point body. Letters and abbreviations used *inside* the Figure are in 8-point body. Lines are in 0.25 or 0.5 point thick. The fonts will be applied by the editorial team; however, it is recommended to use a font size equivalent to that used in the publication (Arial or Helvetica can be used).

**Tables and appendices.** Tables should be provided in Excel or Word format (XLS, DOC), and should be prepared in the format of the journal (175 × 238 mm max). Long tables and appendices may be published on the website of the journal as additional documents, with the agreement of the author, and linked from the electronic version of the article.

## BIBLIOGRAPHIC REFERENCES

Zotero and EndNote style sheets are available from the journal's website.

In the main text, references to authors, in lower case, should be presented without a comma before the year and in chronological order, as follows: Smith (2001), Smith (2001, 2002), (Smith 2001), (Smith 2001; Smith & Jones 2001; Jones 2002), Smith (2001: 1; 2003: 5), Smith (2001: fig. 2).

Authors of taxa are indicated with a comma, e.g., *Cel-laria* Ellis & Solander, 1786; *Neocometes orientalis* Mein, Ginsburg & Ratanasthien, 1990; *Telothyris jauberti* (Des-longchamps, 1863).

Journal names should not be abbreviated. References related to the forenames of authors of scientific names should not be included, except if additional bibliographic information is provided for the same publications (pages, plates, etc.).

References should be presented, in alphabetical order, as follows:

DENISON R. H. 1978. — Placodermi, in SCHULTZE H. P. (ed.), *Handbook of Paleichthyology*. Volume 2. Gustav Fischer, Stuttgart, 128 p.

MARSHALL C. R. 1987. — Lungfish: phylogeny and parsimony, in BEMIS W. E., BURGGREN W. W. & KEMP N. E. (eds), *The biology and evolution of lungfishes*. *Journal of Morphology* 1: 151-162.

SCHULTZE H. P. & ARSENAULT M. 1985. — The panderichthyid fish *Elpistostege*: a close relative to tetrapods? *Paleontology* 28: 293-309.

ALBA D. M., DELSON E., CARNEVALE G., COLOMBERO S., DELFINO M., PAVIA M. & PAVIA G. 2014. — First joint record of *Mesopithecus* and cf. *Macaca* in the Miocene of Europe. *Journal of Human Evolution* 67: 1-18. <https://doi.org/10.1016/j.jhevol.2013.11.001>

**Small caps in the references.** The small caps in the bibliography of the article can be ignored by the authors; they will be applied during the preparation process of the article, by the editorial board of the journal. Instead, authors can format the bibliography as follows:

Schultze H. P. & Arsenault M. 1985. — The panderichthyid fish *Elpistostege*: a close relative to tetrapods? *Paleontology* 28: 293-309.

**Digital identifiers.** Each time it's possible, digital identifiers should be indicated, such as the DOI (Digital Object Identifier) for the bibliographic references. Adding a permanent URL from BHL (Biodiversity Heritage Library, <http://www.biodiversitylibrary.org>) is also encouraged. The editorial board will enter the metadata of the article in Zoobank (taxonomic and nomenclatural novelties, articles and authors if needed).

**Examples of publications.** Authors can ask for examples of publications to the editorial board: synonymy lists, bibliography, lists of material examined, organization of the figure plates, etc. Previous articles, already published, are available on the website of the journal, and should be used as extend examples of our publications.

## REVISED VERSION

Revised manuscripts should be sent to the editorial board with a summary of the modifications applied, or not, on the text. The document should mention the reasons of the rejection of some modifications). The revision tracking system of the software used to prepare the article can also be used.

## PROOFS

Proofs will be sent in PDF format to the corresponding author for correction and must be returned within eight days. Authors will be charged for excessive corrections.

**A high-resolution PDF file of the article will be available on the journal's website the day of publication.** Authors will be able to order printed versions of their article via a Print-on-demand system.

## DISTRIBUTION

*Comptes Rendus Palevol* articles are available for free on the journal's website (<http://sciencepress.mnhn.fr/en/periodiques/comptes-rendus-palevol/>); previous issues of the journal are still available at the following addresses:

– <https://www.sciencedirect.com/journal/comptes-rendus-palevol/issues> for issues of *Comptes Rendus Palevol* published between 2002 and 2019;

– <https://www.academie-sciences.fr/fr/Transmettre-les-connaissances/comptes-rendus-de-l-academie-des-sciences-numerisees-sur-le-site-de-la-bibliotheque-nationale-de-france.html> for older issues of the *Comptes Rendus de l'Académie des Sciences*.
