Three new species and ten new records of *Trypetheliaceae* (Ascomycota) from Sri Lanka

APTROOT A. & WEERAKOON G. 2018. — Three new species and ten new records of *Trypetheliaceae* (Ascomycota) from Sri Lanka. *Cryptogamie, Mycologie* 39 (3): 373-378. <https://doi.org/10.7872/crym/v39.iss3.2018.373>

New Arthoniales from Santa Catarina (South Brazil)

APTROOT A., GUMBOSKI E. L. & CÁCERES M. E. d. S. 2017. — New Arthoniales from Santa Catarina (South Brazil). *Cryptogamie, Mycologie* 38 (2): 275-281. <https://doi.org/10.7872/crym/v38.iss1.2017.275>

New lichen records for the Azores, with the report of some tropical species new to Europe

APTROOT A. & RODRIGUES A. F. 2005. — New lichen records for the Azores, with the report of some tropical species new to Europe. *Cryptogamie, Mycologie* 26 (3): 273-280.

The lichen genus *Schistophoron* Stirt. (Ascomycetes, Graphidaceae) in Brazil with a world key to the species

TORRES J. M., SPIELMANN A. A., APTROOT A., CARDOSO K. F. & HONDA N. K. 2020. — The lichen genus *Schistophoron* Stirt. (Ascomycetes, Graphidaceae) in Brazil with a world key to the species. *Cryptogamie, Mycologie* 41 (13): 211-217. <https://doi.org/10.5252/cryptogamie-mycologie2020v41a13>

New species of the *Heterodermia comosa*-group (Physciaceae, lichenized Ascomycota) from southern South America

MICHLIG A., RODRÍGUEZ M. P., APTROOT A., NIVEIRO N. & FERRARO L. I. 2017. — New species of the *Heterodermia comosa*-group (Physciaceae, lichenized Ascomycota) from southern South America. *Cryptogamie, Mycologie* 38 (2): 155-167. <https://doi.org/10.7872/crym/v38.iss1.2017.155>

***Aspidothelium silverstonei* and *Astrothelium fuscosporum*, two new corticolous lichen species from Colombia**

MEDINA E. S., APTROOT A. & LUCKING R. 2017. — *Aspidothelium silverstonei* and *Astrothelium fuscosporum*, two new corticolous lichen species from Colombia. *Cryptogamie, Mycologie* 38 (2): 253-258. <https://doi.org/10.7872/crym/v38.iss1.2017.253>

A new, locally common *Graphis* (Graphidaceae) species from southern Brazil

KÄFFER M. I., MARTINS S. M. d. A., CÁCERES M. E. d. S. & APTROOT A. 2014. — A new, locally common *Graphis* (Graphidaceae) species from southern Brazil. *Cryptogamie, Mycologie* 35 (3): 233-237. <https://doi.org/10.7872/crym.v35.iss3.2014.233>

Three new lichen species from cloud forest in Veracruz, Mexico

CÓRDOVA-CHÁVEZ O., APTROOT A., CASTILLO-CAMPOSA G., CÁCERES M. E. d. S. & PÉREZ-PÉREZ R. E. 2014. — Three new lichen species from cloud forest in Veracruz, Mexico. *Cryptogamie, Mycologie* 35 (2): 157-162. <https://doi.org/10.7872/crym.v35.iss2.2014.157>

Over 200 new lichen records from Sri Lanka, with three new species to science

WEERAKOON G. & APTROOT A. 2014. — Over 200 new lichen records from Sri Lanka, with three new species to science. *Cryptogamie, Mycologie* 35 (1): 51-62. <https://doi.org/10.7872/crym.v35.iss1.2014.51>

Some new lichen species from Sri Lanka, with a key to the genus *Heterodermia* in Sri Lanka

WEERAKOON G. & APTROOT A. 2013. — Some new lichen species from Sri Lanka, with a key to the genus *Heterodermia* in Sri Lanka. *Cryptogamie, Mycologie* 34 (4): 321-328. <https://doi.org/10.7872/crym.v34.iss4.2013.321>

Lichens from Tanzania and Kenya III. Macrolichens and calicioid lichens

ALSTRUP V., APTROOT A., DIVAKAR P. K., LAGRECA S. & TIBELL L. 2010. — Lichens from Tanzania and Kenya III. Macrolichens and calicioid lichens. *Cryptogamie, Mycologie* 31 (3): 333-351.

A new species of *Heterodermia* from Costa Rica and Venezuela, in honour of the Spanish Ambassador in Costa Rica, Juan José Urtasun Erro.

CHAVES J. L., UMAÑA L., LÜCKING R., SIPMAN H. J. M. & APTROOT A. 2006. — A new species of *Heterodermia* from Costa Rica and Venezuela, in honour of the Spanish Ambassador in Costa Rica, Juan José Urtasun Erro.. *Cryptogamie, Mycologie* 27 (4): 335-339.

The epiphytic lichen flora of Bahrain

MANDEEL Q. A. & APTROOT A. 2006. — The epiphytic lichen flora of Bahrain. *Cryptogamie, Mycologie* 27 (3): 279-286.

Pyrenocarpous lichens from Tanzania and Kenya

ALSTRUP V. & APTROOT A. 2005. — Pyrenocarpous lichens from Tanzania and Kenya. *Cryptogamie, Mycologie* 26 (3): 265-271.
