RÉSUMÉ

*Validation d'*Hilsenbergia teitensis* (Gürke) J.S.Mill. (Boraginaceae).*

La combinaison *Hilsenbergia teitensis* (Gürke) J.S.Mill. est validée, corrigeant ainsi une erreur dans la révision du genre publiée récemment.

In a recent revision of the genus *Hilsenbergia* Tausch ex Meisn. (MILLER 2003), a new combination was proposed but was not validly published due to several errors, including omission of both the basionym (Article 33.4 of the ICBN; GREUTER *et al.* 2000) and the combining authors name. The new combination is validated below, providing all the information inadvertently left out of the revision.
