

COMPTES RENDUS PALEVOL

Volume 18 (2019) – No. 3 – May

Cover illustration: Entelodon aff. E. gobiensis from the late Eocene of Krabi, Thailand. A–D. TF 2695, left P3 in buccal (A), occlusal (B and C), and lingual (D) views. E–H. TF2694, left P4 in distal (E), occlusal (F and G), and mesial (H) views. The scale bar equals 1 cm. For further details, see : Ducrocq, S., et al., 2019. First record of Entelodontidae (Mammalia, Artiodactyla) from the late Eocene of Southeast Asia. C. R. Palevol 18, 186–190.

Illustration de couverture : Entelodon aff. E. gobiensis de l'Éocène supérieur de Krabi, Thaïlande. A–D. TF 2695, P3 gauche en vues buccale (A), occlusale (B et C) et linguale (D). E–H. TF 2694, P4 gauche en vues distale (E), occlusale (F et G) et mésiale (H). La barre d'échelle représente 1 cm. Pour de plus amples détails, voir : Ducrocq, S., et al., 2019. First record of Entelodontidae (Mammalia, Artiodactyla) from the late Eocene of Southeast Asia. C. R. Palevol 18, 186–190.

General Palaeontology, Systematics, and Evolution / *Paléontologie générale, systématique et évolution*

(Taphonomy and Fossilization / *Taphonomie et fossilisation*)

- Ethological and environmental significance of *Bergaueria hemispherica* from the Late Cretaceous of the Bagh Group, Western India
Apurva D. Shitole, Satish J. Patel, Jaquilin K. Joseph, Jehova L. Darngawn 287

(Invertebrate Palaeontology / *Paléontologie des Invertébrés*)

- Cambrian trilobite fauna of the *Haydenaspis parvatya* level (Series 2, Stage 4): Its stratigraphic position with respect to the *Oryctocephalus indicus* Biozone (Miaolingian Series, Wuliuan Stage) in the Spiti Himalaya, India
Ramanpreet Kaur, Birendra P. Singh, Om Narayan Bhargava, Garry Singla, Stanzin Stopden 298

(Vertebrate Palaeontology / *Paléontologie des Vertébrés*)

- Ontogenetic changes in long-bone histology of the cryptobranchid *Eoscapherpeton asiaticum* (Amphibia: Caudata) from the Late Cretaceous of Uzbekistan
Pavel P. Skutschas, Pavel G. Saburov, Elizaveta A. Boitsova, Veniamin V. Kolchanov 306

Continued on the next page

Contents (continued)

- First evidence of faunal succession in terrestrial vertebrates of the Plio-Pleistocene of the Balearic Islands, western Mediterranean
Josep Quintana Cardona, Jordi Agustí 317
- Pliocene Scelidotheriinae (Xenarthra, Tardigrada) from the Pampean region of Argentina: Morphology, chronology, and comments on the diversity of the subfamily
Ángel R. Miño-Boilini, Martín De Los Reyes, Alfredo E. Zurita, María J. Arrouy, Daniel G. Poiré 325

Human Palaeontology and Prehistory / Paléontologie humaine et préhistoire

(Palaeoanthropology / Paléoanthropologie)

- The alpha taxonomy of *Australopithecus* at Sterkfontein: The postcranial evidence
Frederick E. Grine 335

(Prehistoric Archaeology / Archéologie préhistorique)

- Use-wear analysis of the lithic assemblage from LGM Mohelno-Plevovce site (southern Moravia, Czech Republic)
Joseba Rios-Garaizar, Petr Škrdla, Yuri E. Demidenko 353
- Looking for provisioning places of shaped tools of the late Neanderthals: A study of a Micoquian open-air site, Pietraszyn 49a (southwestern Poland)
Andrzej Wiśniewski, Tobias Lauer, Marcin Chłoń, Katarzyna Pyżewicz, Marcel Weiss, Janusz Badura, Tomasz Kalicki, Katarzyna Zarzecka-Szubińska 367

(History of Sciences / Histoire des sciences)

- Charles de Gerville et les premiers restes de Plesiosauria signalés dans le Jurassique inférieur de France (Hettangien, région de Valognes, Manche)
Arnaud Brignon 390
